

NEGRO STRIKEBREAKERS ARE ATTACKED BY MOB OF MINERS

Riot Occurs at Hastings Camp When Coal Company Men to Work; Pesse Returns in Man-Hunt

DENVER, Sept. 25.—Today, the third of the strike of 100 miners in the southern Colorado coal fields, brought forth its quota of violence when a mob of 100 miners is said to have attacked these negro strikebreakers between Ludlow and the Victor American company's property at Hastings. Reports of the mob's action were telephoned to Denver after James Cameron, mine superintendent of the Hastings, informed Sheriff G. L. H. of Trinidad. The sheriff, with four deputies, spent some time in searching for the miners and investigating the cause of trouble.

The three negroes, together with the Justice of the Peace J. W. Danford of Durango, were passengers in the truck, driven by Carl Beyer of Hastings, which was attacked by the mob. The mob, armed with pickaxe, pieces of wood, and a few with guns, held up the vehicle and compelled the negroes to dismount, and then the justice of the peace and the driver to continue their trip. State officials here, who were in the city at the time, said that nothing was known of the mob's action. The mob, however, could not be definitely reported tonight.

Police officials from Man-Hunt. Under Sheriff Zerk Martin and his men, who today were said to have been in the city, the mob, which was said to have been in the city, was said to have been in the city. The mob, however, could not be definitely reported tonight.

A. F. OF L. TO AID CALUMET MINERS

AGREE TO LEVY ASSESSMENT ON MEMBERS

Politics Injected Into Strike by Speakers; 2,000 Men in Big Parade

WASHINGTON, Sept. 25.—The executive council of the American Federation of Labor in session here tonight considered the question of a nationwide benefit assessment for the strikers in the Calumet, Mich., copper mine district. Members of the council declined to discuss the matter, but it is understood the body virtually agreed to levy a small assessment on the more than 2,000,000 members of the federation's affiliated organizations for the benefit of the striking miners. An appeal for funds probably will be issued in a day or two.

Politics Injected Into Strike. CALUMET, Mich., Sept. 25.—Politics was injected into the copper miners strike by President John H. Walker of the Illinois Mine Workers in an address before 2,000 strikers here this afternoon.

Walker urged them to ignore the Republican and Democratic parties and vote for candidates of the "People's party." Talks by J. L. Lewis of the American Federation of Labor, and Charles Venetta of the United Mine Workers were of a similar trend. Each assured the strikers of the financial support of American organized labor.

Shafts at the Mohawk, Ahmeek, Wolverine and North Keeweenaw mines are being prepared for the partial resumption of mining. It is reported that a considerable number of men have applied for work. That the strikers are still working, however, was indicated by their parade this afternoon of more than 2,000 men.

A second small party of men arrived today at the Quincy mine to take up a second shift.

Democracy Adopt Republican Plan of Industrial Posing

Which Means Interests Will Continue to Operate as They Have in Past

Special to the Gazette. WASHINGTON, Sept. 25.—Information coming from authoritative administration sources indicate that the Democratic leaders, including the president, who have been floundering around for several months in a quandary as to what to do on the great trust problem, are at last settling down to agreement upon a policy, and this policy, it appears, is nothing more nor less than a continuance of the line of actively pursued throughout the Taft administration.

According to administration, Attorney General McReynolds believes that the Sherman law is ample to cover all combinations in restraint of trade, and he is in favor, therefore, of leaving it unamended and of continuing prosecutions under the law as it stands. It is understood in administration circles that the Sherman act may be applied in such a way as to bring about complete and effective dissolution of the wicked trusts. In other words, Mr. McReynolds thinks he has an improvement on the Wickham scheme of dissolution, which in the tobacco and oil cases proved to be entirely satisfactory to the trusts and so unsatisfactory to the public.

President Approves of Scheme. The information now coming from administration sources is that President Wilson, without expressing an opinion one way or the other as to Mr. McReynolds' new theory, has agreed to give the attorney general time in which to try out his scheme.

If this policy is followed out it means, of course, that nothing will be done with the trust problem during the Wilson administration. With the utmost speed, and with fortune favoring him, Mr. McReynolds cannot hope to reach final judgment in the supreme court and see its decree of dissolution effectively operative in any important trust case during this administration.

And yet the trust problem is the most menacing and important of all that demand solution by the statesmen of today. It touches every man, woman and child in the country more closely than any other problem. It has its insistent and persistent finger in almost every item that enters into the cost of living. It has been growing in importance for the last twenty years and public recognition of its growing importance has increased steadily. Clearer evidence of the perplexity of the Democratic leaders, from the president down, over the solution of this problem, should hardly be given than in this newly reported determination to attempt nothing original or constructive, but merely to follow a course of procedure which experience has already proved fruitless.

INTERVENTION IN MEXICO IS DUTY OF U.S.?

Senator Works Declares Too Much Leniency Already Has Been Shown

Situation Has Improved President Wilson More Optimistic Since Presidential Candidate Named

SAN DIEGO, Cal., Sept. 25.—Declaring that it is the duty of the United States to intervene and restore order in Mexico, United States Senator John D. Works, in delivering the oration of the day at the dedication of the site of the monument to Juan Rodriguez Caballero, took occasion today to severely criticize conditions in Mexico and the attitude of the United States. "Just to the south of us, almost within reach of gunshot, our men are being assassinated and our women outraged daily," he said. "What are we going to do about it?"

"I believe a great mistake has been made for which we are responsible, under our guardianship of the peoples south of us, in assuming the Monroe doctrine."

"I have no criticism to make on the efforts of the president of the United States. We are in a fix, intervention, and I believe it is justified in his efforts to avoid it. But these conditions cannot go on forever."

Senator Works continued the action of other powers in patiently waiting for the situation to work itself out.

World Session Acc. Minus End. WASHINGTON, Sept. 25.—President Wilson took the position today that the policy of moral suasion adopted by the United States toward Mexico had accomplished its two cardinal purposes—to obtain assurance that there would be a constitutional election and that a candidate to succeed himself.

Advices received here describing in detail the preparations being made for the election of October 26, and stating, also, that General Huerta would not be a candidate, but would support Federico Gamboa, Mexican minister of foreign affairs, the nominee of the Catholic party, encouraged President Wilson and Secretary Bryan to believe that the Huerta government was carrying out what the United States had emphasized in the Lind negotiations as the essential condition for peace.

KEEP GIRLS ON FARM; BOYS STAY

WOMAN IS ELECTED TO FARMERS' CONGRESS

Helps Write Resolutions Men Are Unable to Draft by Themselves

PLANO, Ill., Sept. 25.—Mrs. Marshall Holt of San Francisco, who has large land interests in California, was elected to a life membership in the Farmers' National congress in the final meeting of the 1913 convention at Plano, Ill., today, the first time that honor has ever been conferred upon a woman.

Mrs. Holt was one of the three persons who drafted the accepted resolutions. The first resolutions committee, a large body of men who attempted to act before the farmers that which they wished to say, labored all last night without accomplishing the work. Mrs. Holt and her two men coworkers hurried through the job this morning.

The final resolution adopted by the convention protested against extending the scope of the employers' liability law to take in farmers.

Meet in Fort Worth Next Year. To Fort Worth, Tex., was awarded the convention of 1914.

In the closing hours of the convention, after the migrations from the farm to the city had been lamented time and again, A. P. Randall, secretary of agriculture of Ohio, made a suggestion for keeping boys on the farm that brought an outburst of applause. "Keep the girls on the farm," he said. "Make it attractive for them. If they become contented, so will the boys."

A resolution demanding an amendment of the federal banking laws providing for the payment of rural banks, which will have funds that may be loaned farmers for long periods at a low rate of interest, was one of those adopted today. Another resolution, the Young's interest, which seeks to sustain their own rural credit system on the people. The centralization of banking power is also assailed.

Mr. Randall declared that "the cultivation of women is a bigger job today than ever. We need a girl. The present price of women's minds and their cooking is sending more men to hades than all the saloons."

Officers Elected. President, W. L. Ames, Oregon, Wis.; Secretary, O. D. Hill, Kentucky, W. Va.; Treasurer, D. K. Unsinger, Wright, Ia.

"Ask congress to enact an old law that will prevent the manufacture and sale of any imitation of butter that in color is any shade of butter."

"Ask that speculative land trusts operated through agencies in the United States be investigated and controlled by national and state laws."

"Ask the enforcement of the Morrill law, passed in 1862, providing for the teaching of farm economics and the proper marketing of farm products."

"Ask the state legislatures and congress to enact laws curbing the growth of water power monopolies."

Three legislative bodies to legalize (Continued on Page Four)

IMPEACHMENT COURT DIGS TO BOTTOM SULZER MIDDLE

Banker Schiff Testifies Governor's Agent Offered to Rejud \$2,500; None of Mrs Sulzer Figures in Hearing

Banker Schiff Testifies Governor's Agent Offered to Rejud \$2,500; None of Mrs Sulzer Figures in Hearing

ALBANY, N. Y., Sept. 25.—These developments today marked the impeachment trial of Governor Sulzer. Jacob H. Schiff, a New York banker, testified that he was asked recently by Samuel I. Frankenstein, a former law partner of Governor Sulzer, if he would accept the return of the alleged \$2,500 campaign contribution which the banker yesterday said he gave to the governor without restriction as to its use. Mr. Schiff said he had replied negatively.

The high court, by unanimous vote, decided to admit all testimony pertaining to campaign contributions made to the governor, even though they were not specified in the articles of impeachment.

This ruling paved the way for the introduction of evidence intended to show the governor had solicited and received large campaign contributions from brewing interests.

Preferred Cash to Checks. The governor asked, according to the testimony, that these contributions be given in cash instead of checks.

Counsel for the impeachment managers said they were prepared to prove the governor received campaign contributions "vastly in excess" of the total mentioned in the articles of impeachment. There were more than 100 contributors other than those of the brewing interests, were brought into the evidence. These included 52 persons mentioned as drawers of Sulzer checks in the account of Louis A. Sarack, the governor's campaign secretary, in the Mutual Alliance Trust company. This account shows, with checks and cash, that deposits of \$14,400 had been made between September 10, 1912, and the date of the governor's inauguration.

Sarack Finally Located. Sarack, regarded by the prosecution as one of the most important witnesses, and whom they said they had been unable to locate, was discovered by process servers in Albany, and served with a subpoena.

Judge Lewis J. Conlan of New York, a lifelong friend of the governor, testified that he had raised money for the governor's campaign, but had given it to him without restriction as to its use.

Sulzer called personally on Charles A. Stedler, president of the American Malt company, Stedler testified, and requested his aid in obtaining the support of Tammany Hall. He said he obtained the support and had solicited a campaign fund for Sulzer. Stedler, who is a son-in-law of the governor, is a son-in-law of the governor.

CONFERES CHANGE THE TARIFF BILL?

Republicans Charge They Have Been Left Out of the Conferences

WASHINGTON, Sept. 25.—After finishing up all but about a half dozen of the points of difference between the senate and house, the tariff bill conferees ran into another deadlock today and adjourned tonight with the conference report still incomplete. Three important matters were still at issue, the tariff rates on cotton yarns and cotton cloths and on lead and zinc ores and the duties when free raw wool and changes in the woolen goods tariff should become effective.

Both houses of congress gave up hope of a report from the conference committee tomorrow, the house adjourning until Saturday and the senate until Monday. There were rumors today of stronger opposition to the report that might develop in the house on the ground that the Republicans had not been taken into the conferences that worked out the details of the measure.

Several Changes Made. If such opposition appears, it probably would take the form of a point of order against the report on the ground that it contains matter conferred with authority by the conference committee. In several instances the conferees have changed provisions in such a way that some members of congress claim that new legislation has been added to the bill. The conferees insist, however, that they have acted solely within their authority and Democratic leaders do not anticipate any marked delay in action on the report.

The senate conferees won out today in their fight against the "anti-dumping clause" which would have assessed an extra duty against goods "dumped" into this country at reduced prices. The senate agreed to drop the amendment inserted in that body requiring rectifiers to pay for the stamps used on packages of distilled spirits filled by rectifiers or whole sale liquor dealers.

The plan to report the tariff bill from conference with a disagreement on the cotton futures tax, it was learned tonight, was the action of Mr. Dill of Wisconsin. The house conferees have informed the president that they have failed to act on the Clarke amendment, which had no opportunity of discussing the senate amendment or any thing similar to it. The president expected the conferees to be completed by the expiration of the cotton futures tax. The president told callers today that he was in favor of some measure which would relieve the cotton farmer from the manifest injustice of having his prices depend on speculative operations.

largest single electric-power generating plant in the world and its price for its product is said to be lower than that of any other electric power generating company in the world.

RAIN AND SNOW IN TEXAS PANHANDLE

Temperature Drops and Frost Is Feared; Cotton Is Damaged in Fields

DALLAS, Tex., Sept. 25.—A heavy general rain, accompanied by a sharp drop in temperature, was reported throughout central and west Texas today. In some instances a maximum of four inches of rain was reported and most points reported two inches or more.

Considerable damage to unplucked cotton at some points was reported. Advertisers from grain sections say the precipitation has been beneficial to all fall grains.

Reports indicated that the rainfall extended from Oklahoma as far south as Houston.

PLAINVIEW, Tex., Sept. 25.—South here, accompanied by a cold northerner which is sweeping over the Panhandle section of Texas. The snow accompanied a fine cold drizzle. The temperature has dropped to 45.

AMARILLO, Tex., Sept. 25.—A drop in temperature to 40 degrees followed a chilling rain throughout the Panhandle plains today. Heavy sleet is reported in eastern New Mexico and a damaging frost is feared here tonight.

ROSWELL, N. M., Sept. 25.—Continuous rains for the last 18 hours from Amarillo to Pecos and all over the plains section around here, is filling the watering hole for the stock. The rains following a sudden drop in temperature.

SANTA FE, N. M., Sept. 25.—A snow storm, which broke all records in the 41 years the weather bureau has been established in Santa Fe, started at 7:30 this morning and lasted for over two hours. The snow melted almost as rapidly as it fell in the lower altitudes. More than 10 of an inch of precipitation was recorded. Traces of snow in September have been recorded, but never before such a storm as the one this morning.

EL PASO, N. M., Sept. 25.—Heavy rains were reported and the rain continued today by a heavy 21.21 inch fall being reported at El Paso.

BERLIN, Sept. 25.—A wordy wrangle over the formalities in connection with the enthronement of Prince Wilhelm of Prussia, duke of Cumberland and Duchess Victoria Louise, as Duke and Duchess of Brunswick, almost led to a split in the German imperial family and the withdrawal of the young prince and princess, from Germany, according to today's Tagblatt.

Prussian officials it is stated, insisted on more explicit renunciation by the prince of his claims to the throne of Hanover, whereupon the prince declared that he would take off his Prussian uniform and retire to Austria with his bride, Imperial Chancellor Von Bethmann-Hollweg thereupon yielded the point.

Bishop's Wife Scores Misses Warrington And Norris For Conduct

SACRAMENTO, Cal., Sept. 25.—Mrs. W. H. Moreland, wife of Hon. Moreland of this famous district, was constantly opposed today a resolution offered by two members of the probation committee of the juvenile court and provided for the dismissal of all proceedings against Marsha Warrington and Lora Norris, whose delinquency to Reno, Nev., with Mauri I. Duggan and L. Drew (committee) resulted in the conviction of the men for violation of the Mann white slave act. The resolution was defeated by a vote of 4 to 3, and the girls will be taken before the juvenile court and placed under restriction.

Both of the girls are coming about the streets shopping and laughing and chatting with friends. The bishop's wife. Some restraint should be placed upon them.

Be merciful. Give the girls a chance. pleaded Mrs. T. W. Shanahan of the probation committee.

I am merciful. Mrs. Moreland answered. "It is the duty of the court to protect the innocent to save other girls from such as these. If the probation court had done its duty in the first place two men would not now be on the road to prison two wives broken hearted, and mothers and fathers disgraced."

City Commissioner Carracher said the girls had wrecked home and destroyed punishment.

NEGRO STRIKEBREAKERS

(Continued From Page One.)

strikers must vacate company houses within the near future and "give way" to men who do desire to work.

By tonight the conduct of the strike had become more of a matter of routine, as the men and officers have become more accustomed to the condition confronting them.

Coroner Holds Inquest.
TRINIDAD, Sept. 25.—At the coroner's inquest held here this afternoon, a verdict was found that Marshal Robert Lee came to his death from a gunshot wound by a gun held in the hands of one Tom Jarvis, otherwise known as "Tom the Greek."

Lee was shot directly through the neck and death was instantaneous. There were several eye witnesses to the shooting but the district attorney stated that they had been excused at this time as it would work a hardship on the companies to take them away from their work.

"Mother" Jones and Frank Hayes held a sitting at Trinidad this morning at the scene of the shooting of Jarvis.

The dead marshal will be buried at Eaton, N. M., his former home.

Graves Dug Off Grounds.
Jarvis' grave who have run the "labor" at Trinidad were ordered off the grounds by the company. They were told to dig their own graves and to be buried there.

The company stated that they would not be responsible for the burial of the dead marshal.

Mine Workers Fined.
WALSHEBURG, Colo., Sept. 25.—Fifty dollar fine and 30 days in jail was a sentence imposed by Justice of the Peace Stacy at Rouse, on Charles Blocker and J. E. Robinson, two of the three men arrested the first of the month, charged with carrying concealed weapons. The case was immediately assigned to the county court by United Mine Workers attorneys.

Blocker and Robinson in company with Victor Mallets were arrested while on their way to Lodi to attend a meeting that was to be addressed by John Lawson, a member of the executive committee of the United Mine Workers. Mallets was found not guilty. The men admitted they were carrying rifles in a buggy but said that they were concealed.

The officer who made the arrest said that the men were carrying rifles and a sawed off shotgun besides some wild animals they had concealed under their arms.

All Families Provided For.
Every family is comfortably settled at the concentration camp at the head of Fifth street. The four days rain that has visited this district caused a great deal of suffering among the families that found it necessary to

move during that time. Tonight it was said that all the families that were expected had already been provided for at the camp.

The union officials are making every effort to protect the miners and their families. They do not anticipate any further suffering at the camp. The camps are flooded and boarded up part of the way, and the occupants are dry. A system of ditches has been dug around the camp and the water is being drained off into irrigation ditches.

The district passed the quietest day today since the beginning of the strike. Not a case of disorder has been reported since the women and children attacked the tracklayer. Sheriff Farr does not anticipate any trouble in keeping peace in the district.

Conditions in Boulder County.
BOULDER, Colo., Sept. 25.—The third day of the strike in Boulder county today was marked by a steady increase in the strength of the strikers and accession to their forces from the ranks of the strikebreakers who have been operating some of the mines for the last three years.

Up to noon today, 135 miners from the Simpson and the Standard mines at Lafayette registered at union headquarters for strike benefits. At Louisville 50 more registered.

Several of the leading mines of the county are badly crippled and the output materially reduced.

The Monarch mine at Marshall is unable to operate. The Blue Ribbon in Weld county is reported tied up. The Hestia at Louisville shipped two cars today instead of its usual 15. The Hestia No. 3 at Louisville has a small force at work. The industrial at Superior and the Osborn at Marshall continued normal activity.

Tonnage Reduced.
The Simpson and the Standard at Louisville, two of the largest in the county, only ship 2,000 tons each daily. Today the output was 200 tons.

The operators declare that much of the decreased activity is due to fear of trouble with the union men which has affected the nonunion workers, and those of the union that have not gone out, for they assert that not more than one-fourth of the 1,400 coal miners of the county have obeyed the strike call.

While there has not been a sign of any violence, the sheriff and district attorney of the county will tomorrow go through the coal fields and inspect conditions to ascertain if it is necessary to limit the opening and closing hours of saloons.

CHICAGO THE STAR ELECTRICITY CONSUMER

From Power.
(Chicago leads the world in the production of electric power. The output of 303 electric-supply undertakings in Great Britain for the year 1911-12 amounted to 1,127,498,742 units, but Chicago by itself has an annual output of over 500,000,000, and expects within a year to turn out a billion. The Chicago Commonwealth Edison company generates 1,000 current from the local Edison companies of New York, Philadelphia, Brooklyn and Boston combined. The eastern companies however do not supply power for local transportation while the Chicago company does. The latter operates the

President of Yale university, who has been elected to the board of directors of the New York, New Haven & Hartford railroad.

UNDERGROUND GARAGE FOR CHICAGO

From Popular Mechanics Magazine.
For relieving the downtown streets of Chicago of the congestion caused by the parking of hundreds of automobiles along the curb it is proposed to build an underground garage 13 blocks long, occupying the space under Grand park, between Michigan Avenue and the Illinois Central tracks and extending from Randolph street to the Park Row station near Twelfth street. It is estimated that such a garage would take care of more than 2,000 cars daily. If built as planned this will be the largest and most novel garage in the world and will cost over \$1,250,000.

A FLOWER WITH A HISTORY
From Scholastic 1.7c
The story of a flower, the peony, should command the interest of all flower lovers. It has a story

which began many hundreds of years ago. It is a native of China. This peony has been known for more than 1,000 years. A record has been kept of the peony for 1,000 years. It has a story

which began many hundreds of years ago. It is a native of China. This peony has been known for more than 1,000 years. A record has been kept of the peony for 1,000 years. It has a story

HARDWARE Stoves, Spades, Shovels, Cutlery, Nickled Ware, Guns, Razors, Graniteware, Tinware, Bolts, AND THE THOUSAND AND ONE THINGS IN THIS COMPLETE STOCK

Going At $1/4 - 1/3 - 1/2$ OFF

STORE CLOSED TODAY, Sale Starts Tomorrow, 9 A. M.

There You Are--

the numerous things that will probably be sold out in an hour or two. For instance, a BUCK RANGE, a 6-hole affair that sold at \$35 which will be marked \$28. Another \$50 range for \$38. Still another \$60 for \$40, and some stoves or heaters, too, at less than factory cost, and some used stoves and ranges at almost nothing. Then the graniteware, two or three pieces for what you expect one in profit making time. Refrigerators, too, large and small, for homes or hotels or apartments, less than the dealer pays. Lawn sprinklers, hose, and what not. Ten-cent articles for 5¢ or for less, and 25¢ articles for 10¢ or 15¢, or something like these prices--all of which is being marked and ready for SALE; yes, that's the word, Sale and Saturday the HAVOC begins.

and the story is told. When the doors open there should be a thousand people in line for

A 5c Counter

the doors open. Enough, of course, such a stock will not be sold in a day, nor a week, yet some things will be GRABBED by shrewd shoppers or dealers, who are as anxious to save money as to make it. On the FIVE-CENT COUNTER, then, you'll find toilet paper, 1,000-sheet rolls at 5¢ a roll; 10¢ three-cornered files for 5¢; 20¢ measuring glasses, 10¢ and 15¢ spoons, 15¢ to 20¢ egg beaters, 10¢ to 20¢ potato mashers, 10¢ glass lemon juice extractors, 2 and 3-QUART RETAINED PRESERVING KETTLES, all for 5¢. And such goods as sell at 5 cents apiece, go at 2 for 5¢, like cake cutters, and mouse traps, and tin pie plates, two for the price of one. A dozen coat and hat hooks for 5¢, and more things by far than we can tell of here.

is mentioned, it is to give some idea of how the stock is to be sold, and why it is advisable to be on hand when

Now Then,

Don't wait to be told by someone what you missed, but you do the telling. Don't wait for someone to tell you how many dollars' worth he or she bought for a single dollar, but you do the investing, and let the other fellow worry.

The Windows

TELL PART OF THE STORY, BUT DON'T DEPEND UPON THE WINDOWS, BECAUSE THERE ARE THOUSANDS OF THINGS IN A STORE LIKE THIS, AND THE WINDOWS SHOW BUT A FEW. COME IN, THERE ARE 20 OR MORE CLOCKS TO GIVE YOU ATTENTION. CASH ONLY, NO GOODS SENT HOME SAVE AT YOUR COST--NO EXCHANGES, NO GOODS ON APPROVAL NOTHING BUT BARGAINS, FOR WE ARE IN DEAD EARNEST--TO WIND UP A BUSINESS THAT HASN'T PILED UP LATE, AND WE'LL SUFFER ANY REASONABLE LOSS TO END EXPENSES IN A HURRY.

STEAMER OLYMPIC SHUNS QUEENSTOWN

QUEENSTOWN, Ireland, Sept. 25.—The White Star liner Olympic today followed the example of the big Cunard steamers and shunned Queenstown harbor. A commotion that stirred the whole city followed. Two hundred passengers, mostly Americans, and 1,500 sacks of mail were waiting here for the Olympic. Officials of the line ordered them sent out on tenders to be transferred to the liner. The tenders provided were antiquated boats which pitched and tossed and by the time they got outside the harbor the skippers declared that the sea was too dangerous for a transfer. After a brief stay near the liner the old vessels made for smoother water. After waiting two hours, the tenders returned to Queenstown and disembarked the would-be transatlantic passengers. An indignation meeting was held on the pier. —for William A.

CLARK TOOK THE CHAIR AND A RESOLUTION MOVED BY JUSTICE COHANAN OF NEW YORK AND SECONDED BY MICHAEL SULLIVAN OF OAKLAND, CAL., WAS ADOPTED VIGOROUSLY PROTESTING AGAINST THE FAILURE OF THE LINER TO ENTER THE PORT. URGENT TELEGRAMS WERE SENT TO THE WHITE STAR COMPANY DEMANDING THAT THE VESSEL BE DETAINED AT QUEENSTOWN AND PROPER FACILITIES AFFORDED FOR THE PASSENGERS TO EMBARK.

It is assumed that the White Star company has concurred in the Cunard line's boycott of the port. The Olympic sailed at a noon without taking on board the passengers and mail. **YOUNG MAN KILLED AT CRIPPLE CREEK** CRIPPLE CREEK, Sept. 25.—Earl Wolf, a young man who had been in the district only a short while, was killed this morning while loading cars at the Vindicator mine on Bull hill. The body was found beside the track where a car had evidently run over it, as the body was badly mangled. How long before the body was found he had met his death is not known as no one saw the accident. Wolf is believed to have come from La Junta and efforts are being made to identify him.

ELLIS HAS POLICE RECORD ON COAST

LOS ANGELES, Cal., Sept. 25.—Police records examined today reveal the name of Joseph Ellis, the young man wanted in connection with the murder of Joseph Schiavsky, a clothing merchant in Indianapolis. Ellis formerly lived in this city with his father, a tailor. The first record the police have of Ellis was entered in November, 1909, when he was arrested on the charge of having obtained money under false pretenses. Later he was identified as a deserter from the United States navy and was ordered sent to Mare Island, but escaped from a deputy sheriff on the way. It was reported that Ellis had gone east as a member of the crack team representing the Los Angeles Y. M. C. A., but the physical director of that institution denied that Ellis, at least under his proper name, was ever a member of any athletic team.

Sec. Garrison Opposes West Point Hazing

WASHINGTON, Sept. 25.—Secretary Garrison today put himself on record against any practices favoring hazing at West Point. He sustained the recent action of Col. Clarence P. Townsley, superintendent of the military academy, in depriving of their privileges and rights of the cadets found guilty of the practice. "I am extremely regretful that these boys should have written whining letters to their parents or others," said Secretary Garrison. "The first element of manliness is to take your medicine like a man, particularly in a case where your own conduct has brought on the illness."

PATTEN DENIES BIG STOCK DEAL IN CHICAGO

CHICAGO, Sept. 25.—Recent rumors of a big stock deal whereby control of the People's Gas Light & Coke company, a \$25,000,000 public utilities corporation of Chicago, would pass to the Commonwealth-Edison company, a \$40,000,000 concern, controlling the electric light and power situation of the city, were denied today by James A. Patten, a heavy stockholder. The three big eastern stockholders, C. H. G. Bulling, the Anthony Brady estate and the D. D. Mills estate, will retire from active participation in administration of the gas company's affairs, something they have long wished to do, according to Mr. Patten, but stock control, according to Mr. Patten, remains undisturbed to the best of his knowledge.

AMERICAN FORESTERS HELP PALESTINE

From the United States department of agriculture, forest service. An agricultural colony in Palestine has just applied to the United States forest service for help in planting trees to bind the drifting sands of the Mediterranean. The colony is near Jaffa or Yafa, the ancient Joppa of the Bible, and there is being developed in connection with it a seaside resort, with hotel, villas, bath houses and gardens. The experts of the service point out that the reclamation of sand dunes is not a serious problem in the eastern United States because the prevailing winds are from the land and the sand is blown into the sea. On the west coast the situation is more serious. The most notable example of reclaimed sand areas there is furnished by Golden Gate park, San Francisco, where grasses, acacias and, later, trees and shrubs have converted sand wastes into pleasure grounds of great beauty. The attention of the Palestine colony is called to the wonderful reclamation of the Landes, France, where a wealth-producing forest of maritime pine, the source of the French

turpentine, has been grown to take the place of shifting dunes. The American foresters also give the address of the French seedman who furnished this government with the maritime pine seed which has been used in planting experiments on the Florida national forest, near the gulf coast.

RATHER UNIQUE, AT LEAST

From the Troy Record. Among seven noted men who were to speak at the opening exercises of a new school was a professor well known for his lapses of memory. But his speech was clear that night and as he seated himself his loving wife felt that he had fully earned the burst of applause that followed, and she clapped her little hands enthusiastically. Then her cheeks crimsoned. "Did you see anything amusing about the close of my address, my dear?" asked the professor as they started for home. "It seemed as if I heard sounds suggestive of merriment about me." "Well, dear," said she, "of all the people who applauded your address, you clapped the loudest and longest." Denver is to open a chain of municipal neighborhood product markets.

NEWS - AT EVERY
CORNER OF THE
WORLD

**ALWAYS RELIABLE
AND UP TO THE
MINUTE**

**DEMANDS WILL BE
PRESENTED OWNERS
BY. PLAYERS FRAT**

**Ask Unconditional Release
After Serving From 10
to 12 Years**

Also Wish to Change Present Rules Governing Carry-ing Players

DETROIT, Sept. 35.—Members of the Detroit American League baseball club here today confirmed a report that the Baseball Players' fraternity has drafted a series of demands which are to be presented to the owners of major league baseball clubs this winter for their approval, after which they will be submitted to the national conference along with the request that they be made part of the laws governing organized baseball. It was said that already 65 per cent of the members of the players' fraternity have endorsed the proposition.

Four important demands are under consideration. It is understood. They are:

The proposition
Four important conditions are under consideration. It is understood. They are:
No player who has been a member of a major league club for 10 years shall be given other than his unconditional release.
No player who has been a member of a major or minor league club, inclusive, for 12 years, shall be given other than his unconditional release.
No player who has been captain on the major league club's roster until July shall be released to the minor league clubs of the American and National leagues.
Each club owner shall be authorized to carry a player and has an opportunity to play on major league clubs until the 15 months of the season, thus taking advantage of the time when the player is working most profitably to add to the club in question for the season.
Every major league club player is expected to be willing to agree to refer to his future contract under the authority of the National association.
President Navin of the Detroit team declined to discuss the matter today.

double-duty - activity in the early days of the youth movement, to arouse public sentiment; but the one big central fact, both in the exhibit and in the speeches, was that school hygiene is to be henceforth considered from the point of view of health, not of character - sound body - clear minds, normal development, air and sunlight, rational living, education to fit for natural productive life, are the things to be striven for; that it is not so much a fight against disease as it is a fight for health. It was the first time that the delegates of 14 nations at Buffalo had declared to the world: "There are many things to be done; we know the evils now, let us remedy them; we can; but let us, above all, do our best to point the way to clean, healthful, normal living for the generations."

ISOLATION HOSPITAL
WITH GLASS WARDS

From the Popular Mechanics Magazine.

Individual gilt rooms, with private bathrooms, can be provided for patients recovering from infectious diseases in a new isolation hospital in Chicago. Instead of being grouped together in a general ward, the patients will have private rooms, separated by an air-tight glass partition from a public corridor, so that their friends can see them without exposing them to infection. This is an advance over the present system which prohibits friends from seeing or receiving letters from convalescing patients. The ward buildings of the new isolation hospital will be built in circular form around the administration building. Such arrangements are to be made for handling all infectious disease except smallpox.
